Printer Job Language Technical Reference Manual

Inside This Manual	iii
Manual Organization	iv
Related Documents	vii
Manual Conventions	viii

1 Introduction to PJJ

The Benefits of PJJ	1-3
Who Should Use PJJ?	1-3
Compatibility With Non-PJJ Printers	1-4

2 PJJ Command Syntax and Format

Syntax Conventions	2-2
Format of PJJ Commands	2-4
PJJ Syntax Rules	2-5
Types of Variables	2-7
Processing Invalid Commands	2-9

3 Using PJJ

Overview of How Commands are Used	3-1
PJJ Job Requirements	3-2
Some Sample PJJ Jobs	3-3
What's Next?	3-4
Command Groupings by Functionality	3-5

4 Kernel Commands

Universal Exit Language (UEL) Command	4-2
ENTER Command	4-4
COMMENT Command	4-6
Methods of Printer Language Switching	4-7

5 Job Separation Commands

JOB Command	5-2
EOJ Command	5-8
PJL Job Security	5-10
Password Protection of Default Feature Settings	5-10
Control Panel Lock	5-11
Disk Lock	5-11
Job Cancellation	5-13
Start of Job Notification	5-13
End of Job Notification	5-14
Job Cancellation Unsolicited Status	5-15

6 Environment Commands

Print Environments	6-2
Changing Environment Settings	6-5
Environment Summary	6-6
PJL Reset Conditions	6-8
Key Points to Remember About Environments	6-9
PJL Environment Variables	6-10
General PJL Environment Variables	6-11
Port-Specific Variables (LaserJet 4PJ Only)	6-25
PCL-Specific Variables	6-26
PostScript-Specific Variables	6-30
ESC/P-Specific Variables	6-31
Setting the Printer to a Desired State	6-33
DEFAULT Command	6-35
INITIALIZE Command	6-38
RESET Command	6-41
SET Command	6-44

7 Status Readback Commands

Printer Status Requirements	7-2
Synchronizing Status Readback Responses	7-2
Format of Status Readback Responses	7-3
INQUIRE Command	7-4
DINQUIRE Command	7-9
ECHO Command	7-13
INFO Command	7-15
USTATUS Command	7-30
TIMED Variable	7-39
USTATUSOFF Command	7-41

Job Recovery	7-42
Sending the Initial Job	7-42
After Job Failure	7-43

8 Device Attendance Commands

RDYMSG Command	8-2
OPMSG Command	8-5
STMSG Command	8-7

9 PJI File System Commands

FSAPPEND Command	9-2
FSDIRLIST Command	9-4
FSDELETE Command	9-6
FSDOWNLOAD Command	9-7
FSINIT Command	9-8
FSMKDIR Command	9-9
FSQUERY Command	9-10
FSUPLOAD Command	9-12
File System Example	9-14

10 Job Management

HP LaserJet 8100 Printer	10-1
HP LaserJet 8500 Printer	10-5

11 Programming Tips for Using PJI

PJI Services	11-2
Print Data Generators	11-3
Printer Utilities	11-5
Spoolers	11-11
Requesting Printer Status	11-18
Using Status Readback in a Multi-User System	11-18

A Product-Specific Feature Support

PJI Feature Support	A-2
PJI Environment Variable Support	A-6
HP LaserJet IIISi Comments	A-43
Comments about HP LaserJet Printers	A-44
LaserJet Printers with Reduced-Function Control Panels	A-51

Color LaserJet Printer Comments	A-52
HP DeskJet 1200C and 1600C Printer Family Comments	A-52
HP LaserJet 5Si/ 5SiMx/5Si Mopier Comments	A-56
HP LaserJet 5Si Mopier Comments	A-57
HP LaserJet 4000 and 5000 Series Comments	A-59
HP LaserJet 1100 Series Comments	A-61
HP LaserJet 2100 Series Comments	A-62
HP Color LaserJet 4500 Series Comments	A-63
HP LaserJet 8000 and 8100 Series Comments	A-64
HP Color LaserJet 8500 Series Comments	A-65

B PjL Command Summary

C Programming Examples

D PjL Status Codes

Status Code Groupings	D-1
Informational Messages (10xxx) *	D-2
Background Paper Loading (11xyy)	D-4
Background Paper Tray Status (12xyy)	D-6
Output Bin Status (15xyy)	D-7
PjL Parser Errors (20xxx)	D-7
PjL Parser Warnings (25xxx)	D-9
PjL Semantic Errors (27xxx)	D-10
Auto-Continuable Conditions (30xxx)	D-11
PjL File System Errors (32xxx)	D-13
Potential Operator Intervention Conditions (35xxx)	D-14
Operator Intervention Conditions (40xxx)	D-16
Foreground Paper Loading (41xyy)	D-19
Paper Jam Messages (LaserJet 5Si/5SiMx only) (42xyy)	D-20
Optional (External) Paper Handling Device Messages (43xyy)	D-22
LaserJet 4000 / 5000 Series Paper Jam Messages (44xyy)	D-23
Hardware Errors (50xxx)	D-24
